

# Growth & Development

Student worksheets · Weeks 25–30

NAME \_\_\_\_\_ CLASS \_\_\_\_\_

Two letter pages per worksheet · Mr. Fung · EIPS

**25** 1. Changes during adolescence

**26** 2. Puberty facts

**27** 3. Organs and jobs

**28** 4. Two signs of capacity

**29** 5. Practices that support a maturing body

**30** 6. Growth wrap

## Changes during adolescence

Growth & Development · Physical, cognitive, behavioural

NAME \_\_\_\_\_

DATE \_\_\_\_\_

Look at the picture. What is happening, and how does it connect to today's lesson?

1.

| Change                                   | Physical, thinking, or behaviour? | A supportive response |
|------------------------------------------|-----------------------------------|-----------------------|
| Needing more sleep                       |                                   |                       |
| Caring more what friends think           |                                   |                       |
| Growth spurt / clothes don't fit         |                                   |                       |
| Wanting a closed bedroom door more often |                                   |                       |

2. Why is it unkind to rank who “hit puberty” first?

**EXIT TICKET** Name one physical, one thinking, and one behaviour change that can happen in adolescence.

## Puberty facts

Growth & Development · Hormones and secondary characteristics

NAME \_\_\_\_\_

DATE \_\_\_\_\_

Look at the picture. What is happening, and how does it connect to today's lesson?

1.

| Statement                                                       | Fact or myth? | Why |
|-----------------------------------------------------------------|---------------|-----|
| Everyone starts puberty at the same age.                        |               |     |
| Hormones are chemical messengers.                               |               |     |
| Sweat and skin oil often increase.                              |               |     |
| You can tell everything about a person from how fast they grow. |               |     |

2. Two physical changes I might notice or that a friend might notice (general, not naming a classmate)

EXIT TICKET Who is a trusted adult I could ask a puberty question?

# Organs and jobs

Growth & Development · Organs and functions

NAME \_\_\_\_\_ DATE \_\_\_\_\_

Look at the picture. What is happening, and how does it connect to today's lesson?

1.

| Part           | Job in your own words |
|----------------|-----------------------|
| Ovaries        |                       |
| Uterus         |                       |
| Vagina / vulva |                       |
| Testicles      |                       |
| Penis          |                       |
| Scrotum        |                       |

2. What does “capacity for human reproduction” mean in Grade 5 language?

3. What are we not learning this year (Grade 6 content)?

**EXIT TICKET** Why do we use correct anatomical words instead of slang?

## Two signs of capacity

Growth & Development · Signs of reproductive capacity

NAME \_\_\_\_\_ DATE \_\_\_\_\_

Look at the picture. What is happening, and how does it connect to today's lesson?

1.

| Process                  | What happens, in Grade 5 language |
|--------------------------|-----------------------------------|
| Menstruation / a period  |                                   |
| Ovulation (one line)     |                                   |
| Sperm production / semen |                                   |

2. One hygiene or help step (pad, wash, trusted adult, extra clothes) a person might need

3. Why does everyone in Grade 5 learn both systems?

**EXIT TICKET** What does “sign of reproductive capacity” mean — and what does it not mean?

## Practices that support a maturing body

Growth & Development · Sleep, food, hygiene, activity, adults

NAME \_\_\_\_\_

DATE \_\_\_\_\_

Look at the picture. What is happening, and how does it connect to today's lesson?

1.

| Practice                | What this could look like for me this month |
|-------------------------|---------------------------------------------|
| Sleep                   |                                             |
| Nutritious food / water |                                             |
| Physical activity       |                                             |
| Hygiene                 |                                             |
| Reducing stress         |                                             |
| Trusted adult           |                                             |

**EXIT TICKET** How do positive health practices support a healthy reproductive system — in one kid sentence?

## Growth wrap

Growth & Development · Unit wrap

NAME \_\_\_\_\_ DATE \_\_\_\_\_

Look at the picture. What is happening, and how does it connect to today's lesson?

1. Puberty is... (one accurate sentence)

---

---

---

2. Capacity for human reproduction means... (and does not mean...)

---

---

---

3. One physical, one thinking, and one behaviour change

---

---

---

4. Two positive health practices I can keep

---

---

---

**EXIT TICKET** How does accurate, respectful knowledge about puberty support well-being?

---

---

---
